Client Revision Requests

Hi! Thanks for the portfolio draft. Here are 20 changes I need:

🎨 Branding & Colors

1. **Change primary gradient colors** — The blue-purple gradient is too common. Change to teal/emerald green (#10B981 to #059669) as my brand color.

2. **Update the background color** — The white/gray background feels bland. Add a subtle pattern or change to a warm off-white (#FDFBF7).

3. **Change the hero avatar placeholder** — Replace the empty circle with my actual profile photo (will provide `profile.jpg`).

📝 Personal Information

4. **Update my name** — Change "Your Name" to "Sarah Chen" throughout the site.

5. **Change the job title** — Instead of "Full Stack Developer & Creative Problem Solver", use "Senior UX Engineer & Design Systems Specialist".

6. **Edit the phone number** — Change from +1 (555) 000-0000 to +1 (415) 987-6543.

7. **Update email address** — Change from hello@example.com to sarah@sarahchen.dev.

8. **Change location** — Update from "San Francisco, CA" to "Austin, TX".

🖼️ Projects Section

9. **Change featured projects layout** — Switch from 3-column grid to 2-column layout for better readability on larger screens.

10. **Replace placeholder projects** — Replace "Project 1-6" with my actual projects:

    - DesignKit Pro (Design System)
    - Flowstate App (Productivity Tool)
    - EcoTrack Dashboard (Analytics)
    - Mindful UI (Component Library)

11. **Add project links** — Each project card needs a "View Project" button linking to live demo.

12. **Add project images** — Replace gradient placeholders with actual project screenshots.

🧭 Navigation & Layout

13. **Add a logo** — Replace text "Portfolio" with my logo SVG file (will provide `logo.svg`).

14. **Add mobile hamburger menu** — The mobile navigation is missing! Need a hamburger menu icon that opens a slide-out menu.

15. **Make navigation sticky with shadow on scroll** — Add a shadow to navbar when user scrolls down.

📞 Contact & Footer

16. **Redesign the footer** — Current footer is too minimal. Add:

    - Quick navigation links
    - Social media icons (not just text buttons)
    - A short tagline/quote

17. **Add a contact form** — Instead of just showing contact info, add an actual contact form with Name, Email, and Message fields.

18. **Update social links** — Replace placeholder # links with my actual profiles:

    - GitHub: github.com/sarahchendev
    - LinkedIn: linkedin.com/in/sarahchen
    - Twitter: twitter.com/sarahchenux

✨ Additional Features

19. **Add a "Download Resume" button** — In the hero section, add a button to download my PDF resume.

20. **Add testimonials section** — Between Projects and Contact, add a new section with 3 client testimonials (will provide quotes and names).

📋 Summary

Priority	Items
High	#4, #5, #6, #7, #8, #14
Medium	#1, #9, #10, #16, #17
Low	#2, #3, #15, #19, #20

Please complete high priority items first. Let me know if you have any questions!
